<https://github.com/Dheim23>

Detail-oriented computer science student with a strong foundation in programming and software development, seeking to leverage technical skills to excel in a computer science internship. Eager to contribute creativity, problem-solving abilities, and dedication to a dynamic team.

Education:

American River College, Sacramento,CA

-Associates of Applied Science in Computer science

Graduated 05/23

Relevant Coursework: Data Structures, software engineering, Algorithms, Object-Oriented Programming, Computer Architecture

-Associates of Applied Science in physical science/ mathematics

Graduated 05/23

Relevant Coursework: Mechanics, Mathematical Methods in Physics

California State University East Bay

-Bachelor of Science in Computer Science

expected graduation date 07/26

California state East Bay, Hayward, CA

Relevant Coursework: Data Structures & Algorithms, Software Engineering, Database Systems, Operating Systems, Computer Networks, Artificial Intelligence, Web Development, Object-Oriented Programming

Projects:

-Personal portfolio website: <https://dheim23.github.io/index.html>

my portfolio website project. This site has the Basic Features: Home, about, projects/ work experience, and contact info pages with smooth navigation.

-library system :

Implemented various abstract data types in C++ (e.g., Classes, Structures, Templates)

To create a system to manage a network of libraries with all the functionalities such as check out and return books, fee handling, and search algorithm to locate books.

-Database driven restaurant chain website:

The purpose of our database driven website is to effectively display information for our customers as well as efficiently manage the data for our internal operations.

Skills:

Programming Languages: Java, Python, C++, JavaScript, SQL, Haskell (slightly experienced), Golang (slightly experience)

Web Technologies: HTML, CSS, Node.js,

Databases: MySQL

Tools & Platforms: Git, GitHub, Linux, Docker, VS Code, Codeblocks, Haskell playground, Eclipse, Replit

ADDITIONAL INFORMATION:

Eligible to work in the United States

Strong communication, teamwork, and analytical problem-solving skills

Passionate about software engineering, emerging technologies, and continuous learning
